

Poetry Café

A cup of coffee shared with a friend is happiness tasted and time well spent.

The chill of the winter evening turned into warmth as family, friends and guests walked into Panini to attend a soulful session of poetry conducted by our Grade 2 students. This occasion was graced by an eminent poet, Ms Deep Shri Singh who not only has been an experienced teacher of English but has also published Poetry book 'A Myriad of Hues'. It was a blissful evening which reverberated with poems recited by our budding poets. It was a pleasure teaching poetry to these young poetry enthusiasts during the course of our unit 'How we express ourselves'. Students appreciated several poems and understood them as a way of expressing one's feelings, beliefs and values. They challenged themselves and read various poems and came to an understanding that good poems have an ability to inspire, and help in looking at life in a new perspective. The students' open-mindedness and appreciation of the various poems was evident in their performances. It was a delight to see our young learners reciting poems with poise and finesse in different languages. The audience was awestruck with their performances and the ambience of the Poetry Café.
